Lab Objectives	2
Exercise – First Agentic App with Multiple Agents Seeded	3

Lab Objectives

In this lab, participants will expose their built agent teams to Agentic Apps. In addition, participants will create a new Agentic App and add their agent teams.

By the end of this lab, participants will be able to:

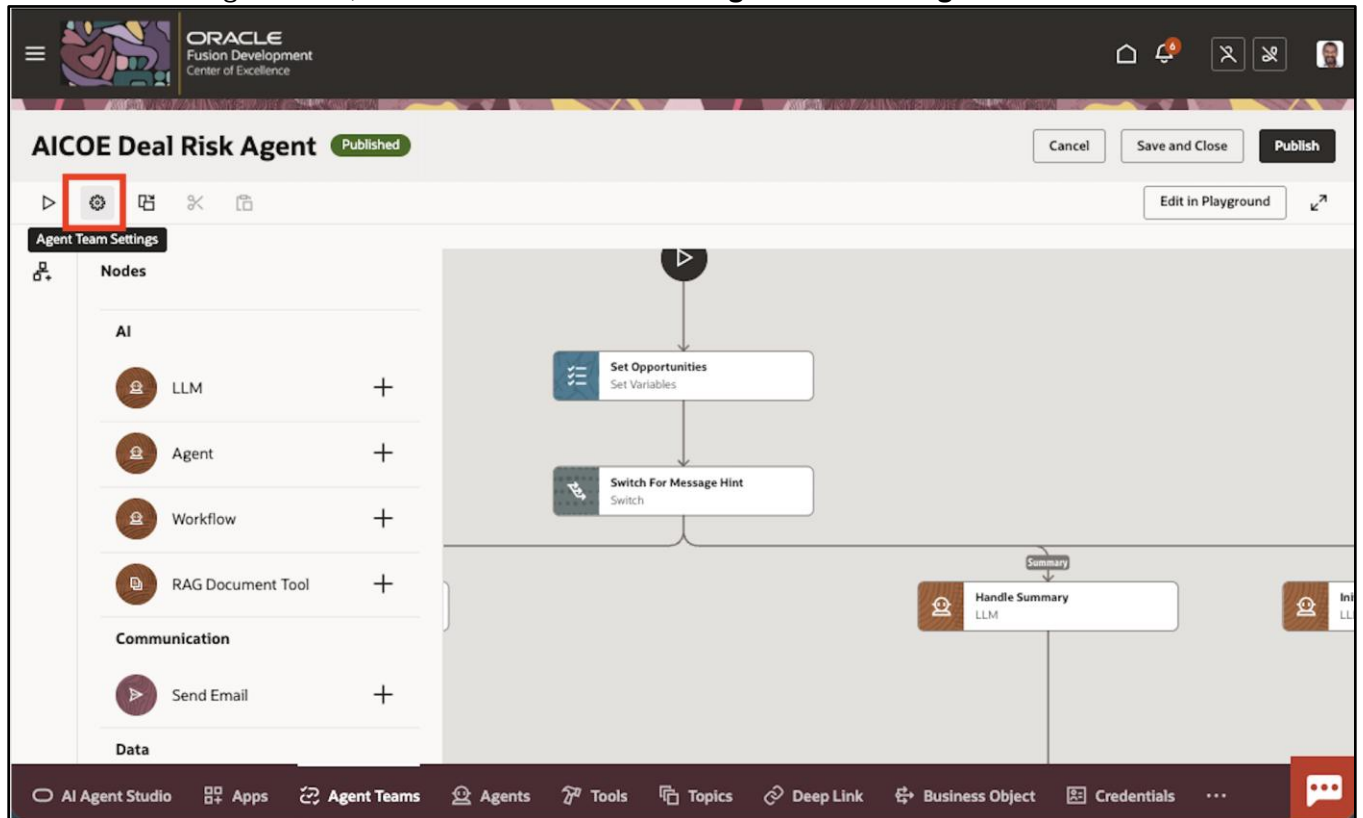

- Expose agent teams to Agentic Apps.
- Create a new Agentic App.
- Change properties and layouts of an Agentic App.
- Add agent teams to an Agentic App.

Exercise – First Agentic App with Multiple Agents Seeded

In this exercise, we will build our first Agentic app and learn how to seed agents into it.

Login to the lab environment using the credentials provided. **Make sure to use your assigned user – You can use the HCM user assigned to you.**

1. In **AI Agent Studio**, go to the **Agent Teams** tab and find the agents you created in the last lab.
 - i. **[Your name initials]** Deal Risk Agent
 - ii. **[Your name initials]** Passport Audit
 - iii. **[Your name initials]** Talent and Comp Review
2. For each of these agent teams, click on **Edit** and then click on **Agent Team Settings**.

3. Under the **Details** tab, enable **Expose to Agentic Apps**. Then click **Update**. Then **Publish** to save and enable your changes.

The screenshot shows the Oracle AI Agent Studio interface for the 'AICOE Deal Risk Agent'. The left sidebar displays a 'Nodes' panel with categories: AI (LLM, Agent, Workflow), Communication (Send Email), and Data. The main panel has tabs: Details, LLM, Security, Chat Experience, Questions, Triggers, Variables, and Error Handling. The 'Details' tab is selected, showing fields for Agent Team Name (AICOE Deal Risk Agent), Agent Team Code (AICOE_DEAL_RISK_AGENT), Family (CX), Product (Sales Force Automation), Type (Workflow), and Tags. A description box explains the agent's function. The 'Expose to Agentic Apps' toggle is highlighted with a red box, and the 'Update' button is also highlighted with a red box.

4. Navigate to the **Apps** tab. Click on the **+** sign to create a new app

App Name	[Your name initials] – Revenue and Team Command Center E.g., If your name is “Sheldon Cooper”, it will be “ SHCO – Revenue and Team Command Center”.
Agent Team Code	[Autogenerated]
Description	Revenue and Team Command Center highlights team talent and compensation risks, document expiration, and helps you stay ahead of operational risks to protect and grow revenue.

Make sure to click **Update** to create the App.

Application Name Description

SOBI Sales Command Center

Sales Command Center is an operations app that brings together a variety of specialized agents to help you monitor pipeline health, forecast performance, identify risk opportunities faster. Each agent focuses on a specific part of the sales process, giving users a clear, real-time view of what is happening across the organization and where attention is needed most. One of the key features of the app is the Opportunity Agent, which gives sales leaders an executive-ready view of opportunity value, win rate, deal velocity, and progression. It highlights bottlenecks, and changes teams can understand pipeline and conversion performance.

AI Agent Studio **Apps** Agent Teams

New Application

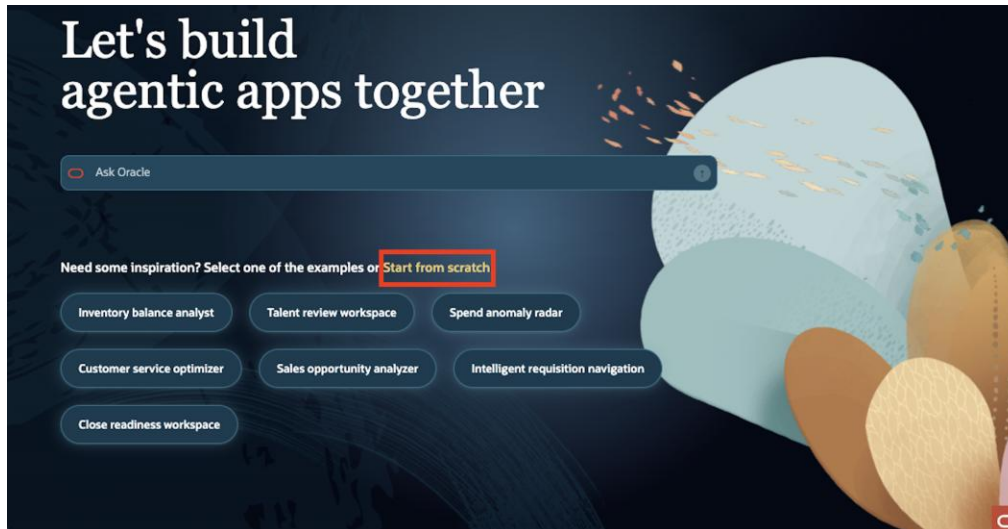

Name: AICOE - Revenue and Team Command Center

Code: AICOE_REVENUE_AND_TEAM_COMMAND_CENTER

Description: Revenue and Team Command Center highlights team talent and compensation risks, document expiration, and helps you stay ahead of operational risks to protect and grow revenue.

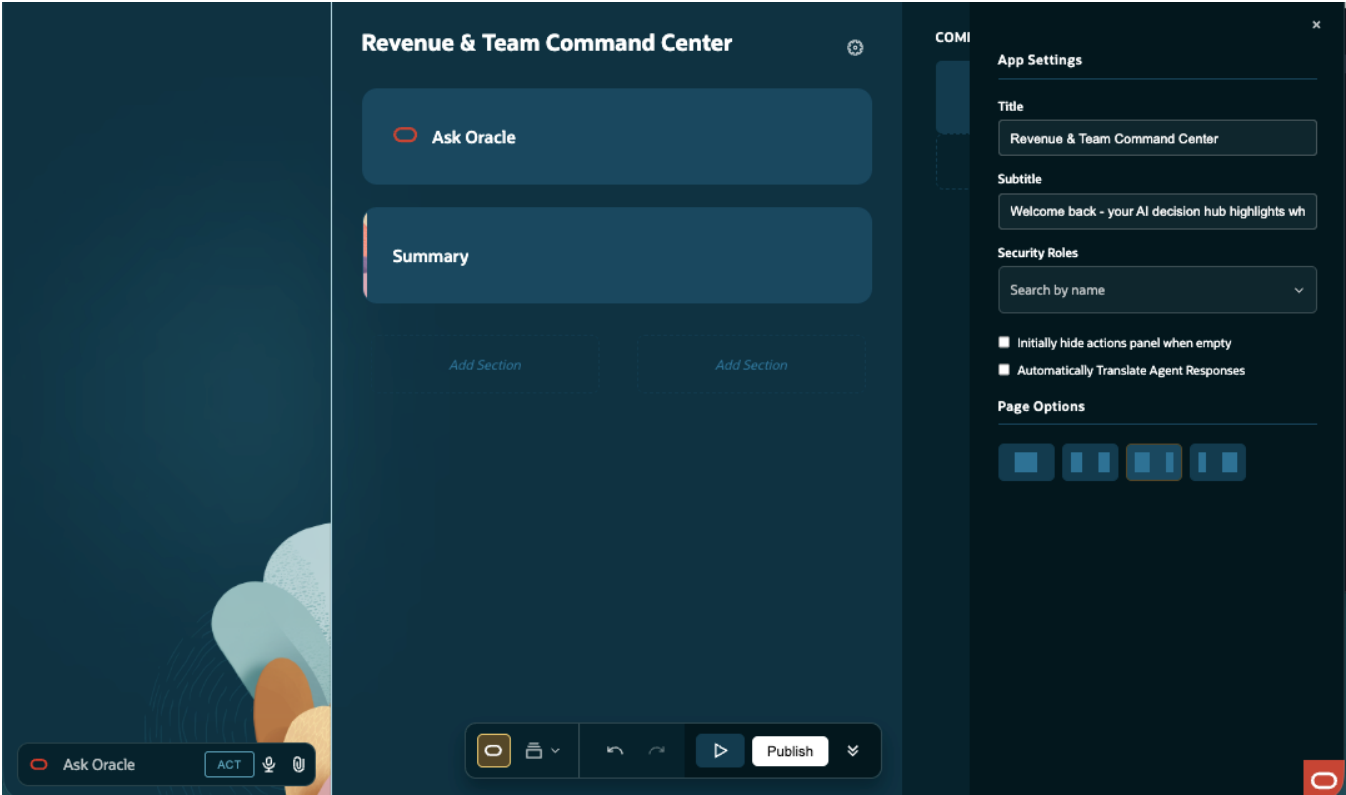

Cancel Update

5. You will land on the Agentic App page for your app. When here, click **Start from scratch**

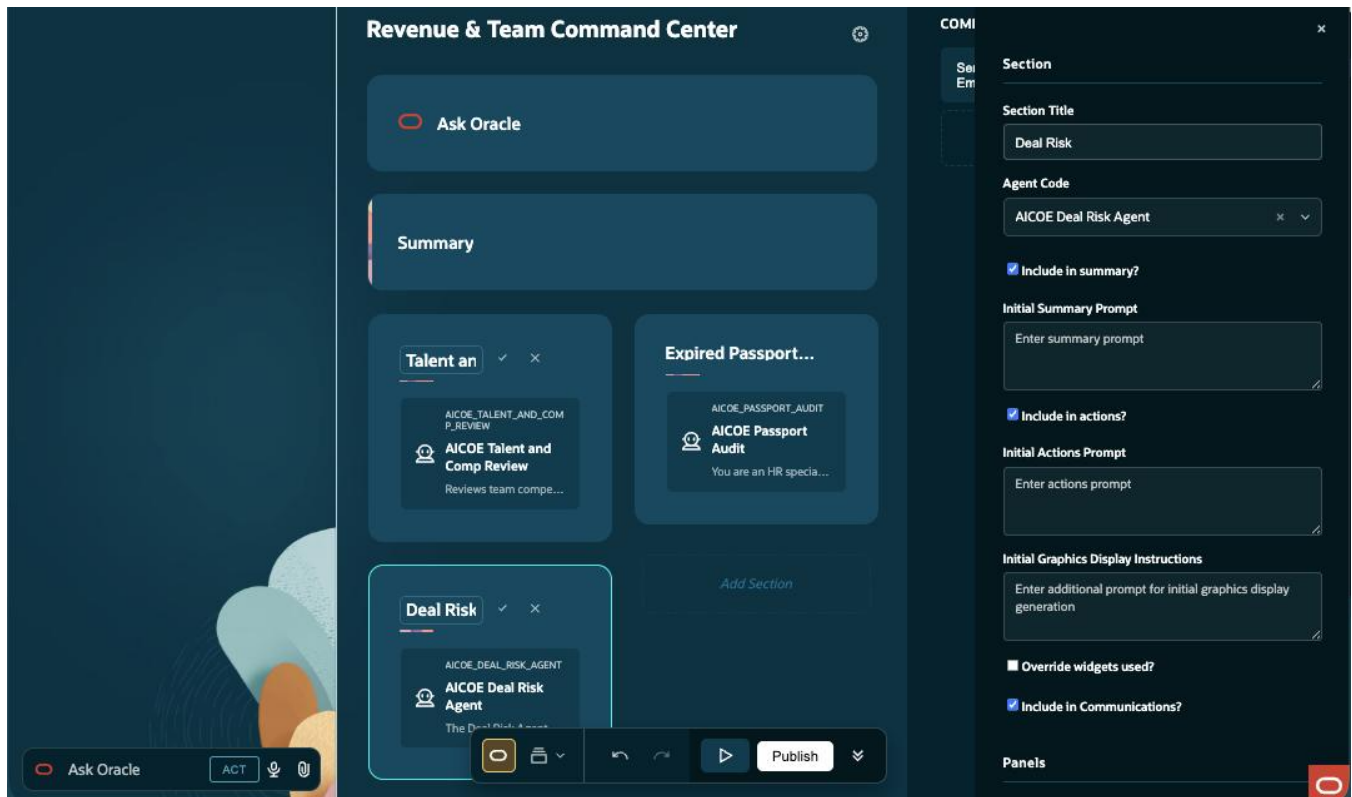

6. Now we will complete some basic App Settings. Input the following into app settings. In addition, select one of the multi-column page options

Title	Revenue & Team Command Center
Subtitle	Welcome back - your AI decision hub highlights where to focus now to protect and grow revenue, ensure your team is ready to deliver, and stay ahead of operational risks.

- Click on **Add Section** and select one of the three agents teams you enabled in steps 1-3. Add a **Section Title** for your app. You can leave the default selections for the rest of the section fields. When finished, you should have 3 agent teams in your Agentic app

- Click the **Play** button next to Publish in order to preview your new Agentic App. Do not Publish.

Revenue & Team Command Center
Welcome back - your AI decision hub highlights where to focus now to protect and grow revenue, ensure your team is ready to deliver, and stay ahead of operational risks.

Ask Oracle

NA Consulting Employee Overview and Critical Deal Risk

NA Consulting employees hold various roles with salaries ranging from \$65,000 to \$160,000 and mostly meet or exceed performance expectations. The key risk is the "KPN Oracle Fusion Cloud HCM rollout" deal, valued at \$240,000, which has a low 10% win probability and has been stalled in Qualification for 800 days. This prolonged delay threatens significant revenue loss and requires urgent action to improve the deal's chances and protect forecast accuracy.

Talent and Compensation

Team Talent Overview

The team shows a strong distribution of performance ratings, with several employees exceeding expectations. High-risk retention concerns are primarily among those with lower Compa Ratios below 0.95 and strong performance, indicating potential compensation misalignment. Overall, most employees are positioned well or above market median, suggesting stable compensation positioning with moderate retention risk concentrated in a few key contributors.

Name	Job	Current Salary	Compa Ratio	Performance Rating	Risk of Loss
Jane Smith	Oracle Cloud Senior Implementation Consultant	\$95,000	0.95	Exceeds Expectations	High
Emily Rodriguez	Oracle Cloud Financials Implementation Consultant	\$78,000	0.91	Exceeds Expectations	High
David	Oracle Cloud ERP	\$65,000	0.90	Meets Expectations	Low

Expired Passports and Work Permits

Employee Document Expiry Review

Please prioritize renewing documents for employees on critical assignments with expired documents immediately to maintain compliance and avoid operational risks.

Carl Lavelle - Critical Assignment with Expired Document Expired High priority
Job Family: DOD | Expired on 2026-04-19
Employee on a critical assignment with an expired document. Immediate compliance action required.

No other expired documents found N/A

Edit Publish

- To finish, click the **Edit** button on the bottom of the page. Review the **App Settings** on the right. Switch your Page Options layout to see how it affects how your agents look. Also, drag and drop your agents to move them around. Feel free to play around with the layout until you find one you like.
