Lab Objectives	2
Exercise 1 – Review InitCommunication & App Experience	3
Exercise 2 – Create Template & fill parameters	6

Lab Objectives

In this lab, participants will create and configure communication templates and enable communication settings to support agent-driven workflows.

By the end of this lab, participants will be able to:

- Review InitCommunication branch ([YOUR NAME INITIALS] Passport Audit workflow)
- Enable and configure communication properties (in [YOUR NAME INITIALS] Passport Audit workflow)
- Create an email template for agent communications ([YOUR NAME INITIALS]- Revenue and Team Command Center app)
- Configure and review template parameters for Talent and Compensation agents (New Hire Template)
- Test and validate communication setup within the agent workflow

Exercise 1 – Review InitCommunication & App Experience

In this exercise, we will review **[YOUR NAME INITIALS] Passport Audit** workflow agents to review **InitCommunication** & how to enable Communication for the widget.

Login to the lab environment using the credentials provided. **Make sure to use your assigned user.**

1. In **AI Agent Studio**, go to the **Agent Teams** tab and search for **[YOUR NAME INITIALS] Passport Audit** agent team.

2. Review the workflow, click the 3 dots (ellipsis menu) on **Draft Communication** LLM node and select **Edit**.

3. Review the **Prompt** for the **Draft Communications** LLM node.

Draft Communications
LLM

Details LLM Output App Experience

Name: Draft Communications Code: DRAFT_COMMUNICATIONS Error Handler: [Dropdown]

Prompt

#Role
Draft email or text communications using a business formal tone. Generate no more than 2 communications and ensure you are creating one communication per employee record. Do not consolidate records or refer to information from another employee's record.

Input
{{context.\$nodes.GATHERINFO.\$output.result}}

The input is an array of objects, each representing an employee record with the following attributes:

1. PersonNumber: Employee identifier
2. LegislationCode: Country or legislation
3. ListName: Employee name
4. DocExpiryDt: Passport expiry date
5. Email: Employee's email address
6. HRBPEmail: Employee's HR Business Partner email
7. DocExpiryFlag: Boolean flag indicating if the document is already expired ("true" if expired)
8. JobFamily: Employee's job family

Special instructions:

- Employees with "DOD" as Job Family are on critical assignments.
- Employees with DocExpiryFlag set to "true" have already-expired documents and require attention.
- Employees on critical assignments (JobFamily = "DOD") with expired documents (DocExpiryFlag = true) are highest priority and must be listed and highlighted first.

Task:

1. Review all employee records.
2. Only when employees are on critical assignments (JobFamily = "DOD") with expired documents (DocExpiryFlag = true), generate the email notification.

Cancel Update

4. Navigate to **App Experience** and switch the **Enable Communications for the widgets** toggle on. Click **Update** and then **Publish** to publish the agent.

Draft Communications
LLM

Details LLM Output App Experience

Enable Actions for the widgets: [Toggle Off]

Enabling this will allow the agent to generate recommended actions.

Enable Communications for the widgets: [Toggle On]

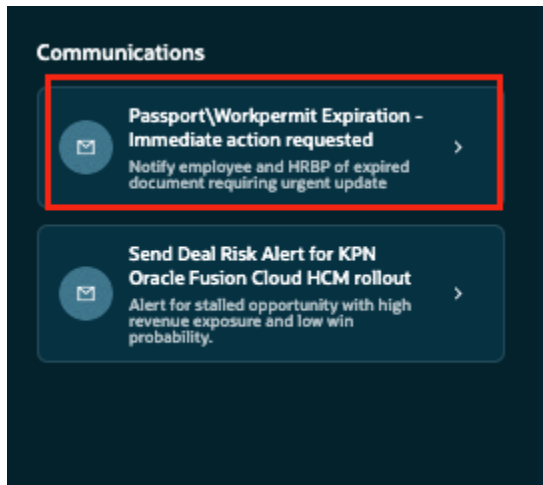

Enabling this will allow the agent to generate recommended communication items.

Select the widgets you want to use: [Dropdown]

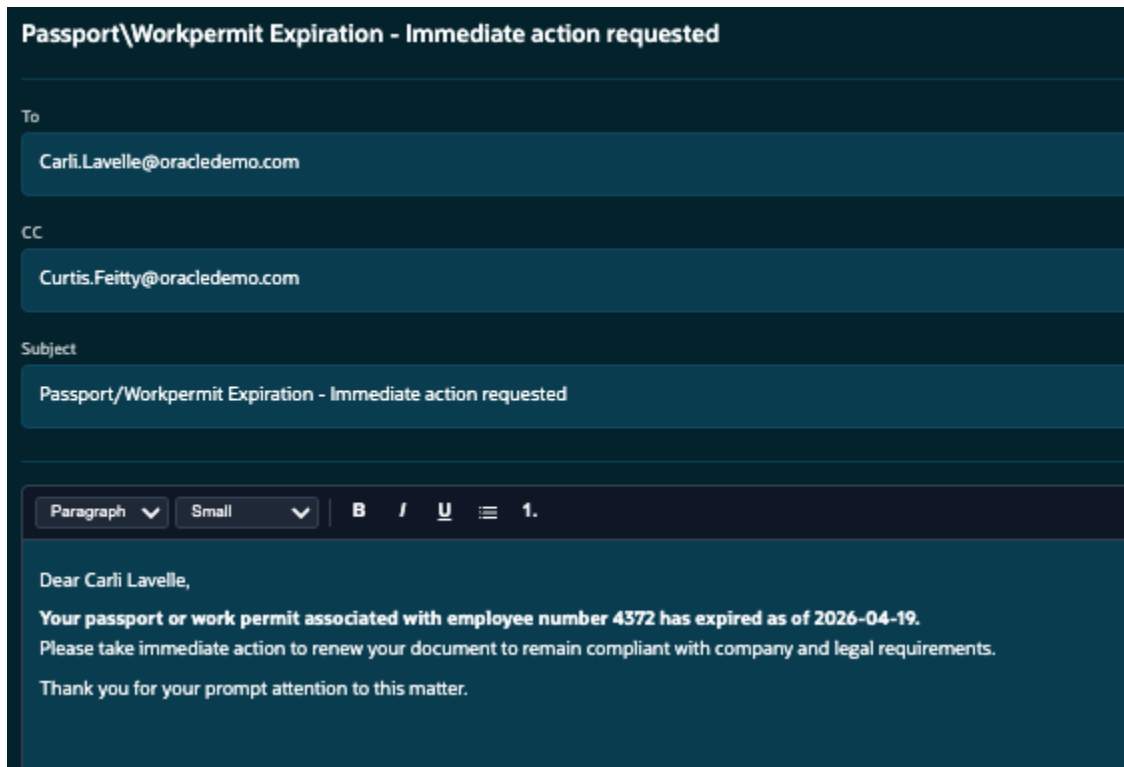

Write instructions in clear, everyday language explaining when and how to use the widgets.

Cancel Update

5. Navigate back to your **[YOUR NAME INITIALS] Revenue and Team Command Center** app and select the pencil icon to edit.
6. Under the **Communications** section, you will now see a communication item that has been generated using the instructions from the prompt you just reviewed. Click on the communication card regarding Passport/Work permit Expiration.

7. Review the email communication that has been drafted

Exercise 2 – Create Template & fill parameters

In this exercise, we will review **[YOUR NAME INITIALS] - Revenue and Team Command Center** app and create a communication template and connect it with the communication action.

Login to the lab environment using the credentials provided. **Make sure to use your assigned user.**

1. In **AI Agent Studio**, go to the **Agent Teams** tab and search for **[YOUR NAME INITIALS] Talent and Comp Review** agent team.

- In **AI Agent Studio**, go to the **Apps** tab and search for **[YOUR NAME INITIALS] - Revenue and Team Command Center** app and click **Edit** (pencil icon), when application starts, click **Edit** again to go to edit mode.

- Click browse app components button – click **+ New Template** and select **Email**.

- Populate the required fields.

Template Name: New Hire Welcome Email

Recipient: MyOrgView@oracledemos.com

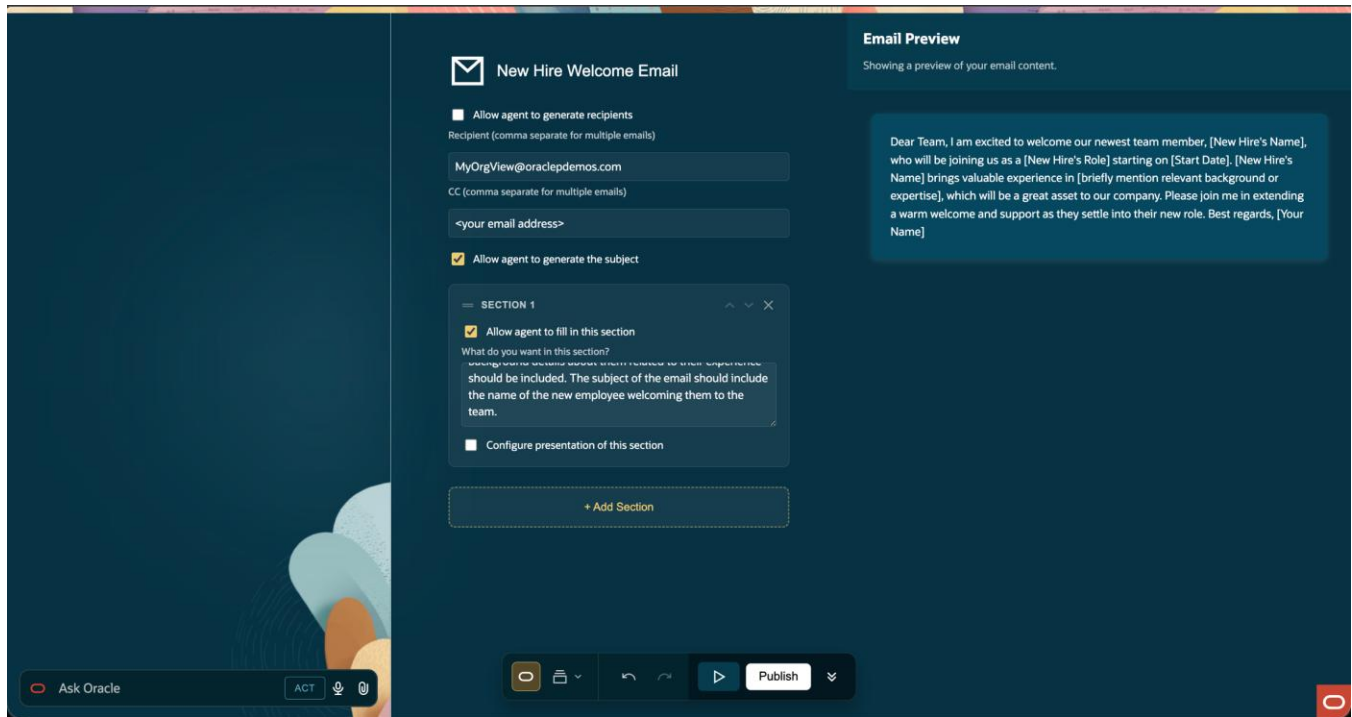

CC: <your email address>

Prompt (Enter this information under section as shown below in “What do you want to do in this section?”):

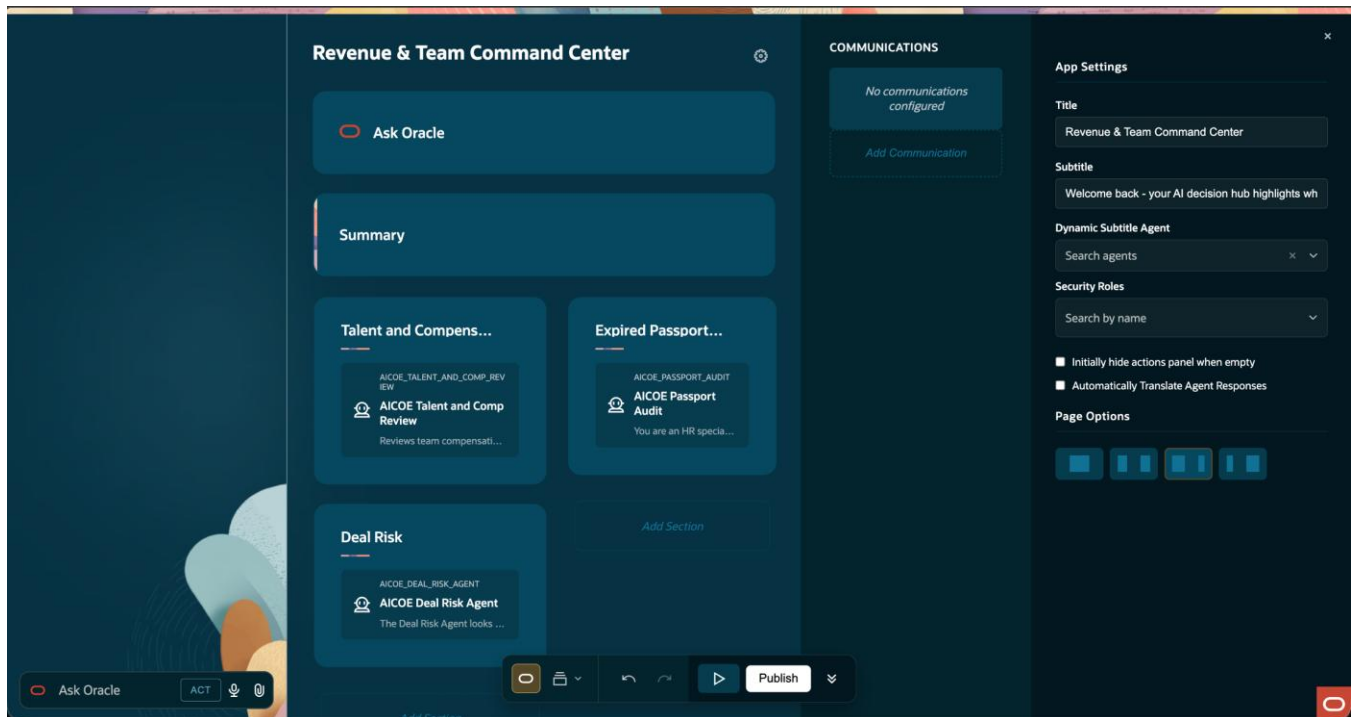

This should be a welcome email for any new hires that have joined the team. It should include their name, role they will be filling in the company, and start date. Any other background details about them related to their experience should be included. The subject of the email should include the name of the new employee welcoming them to the team. Use user's fullName from user context to populate the sender's name.

The screenshot shows the Oracle AI Assistant interface for configuring a 'New Hire Welcome Email' template. The interface is dark-themed with a blue background. On the left, there's a sidebar with a search bar and a list of templates. The main area displays the configuration for the 'New Hire Welcome Email' template. It includes fields for 'Recipient' (MyOrgView@oracledemos.com) and 'CC' (<your email address>). There's a checkbox for 'Allow agent to generate the subject' which is checked. Below this, there's a section titled 'SECTION 1' with a checkbox for 'Allow agent to fill in this section' which is also checked. The prompt for this section is: 'What do you want in this section? This should be a welcome email for any new hires that have joined the team. It should include their name, role they will be filling in the company, and start date. Any other background details about them related to their experience should be included. The subject of the email should include the name of the new employee welcoming them to the team. Use user's fullName from user context to populate the sender's name.' There's a button '+ Add Section' at the bottom. At the bottom of the interface, there's a bar with 'Ask Oracle', a microphone icon, and a 'Publish' button.

- Click outside the form to preview email.

- Click browse app components button – click the **App** to come back to app edit.

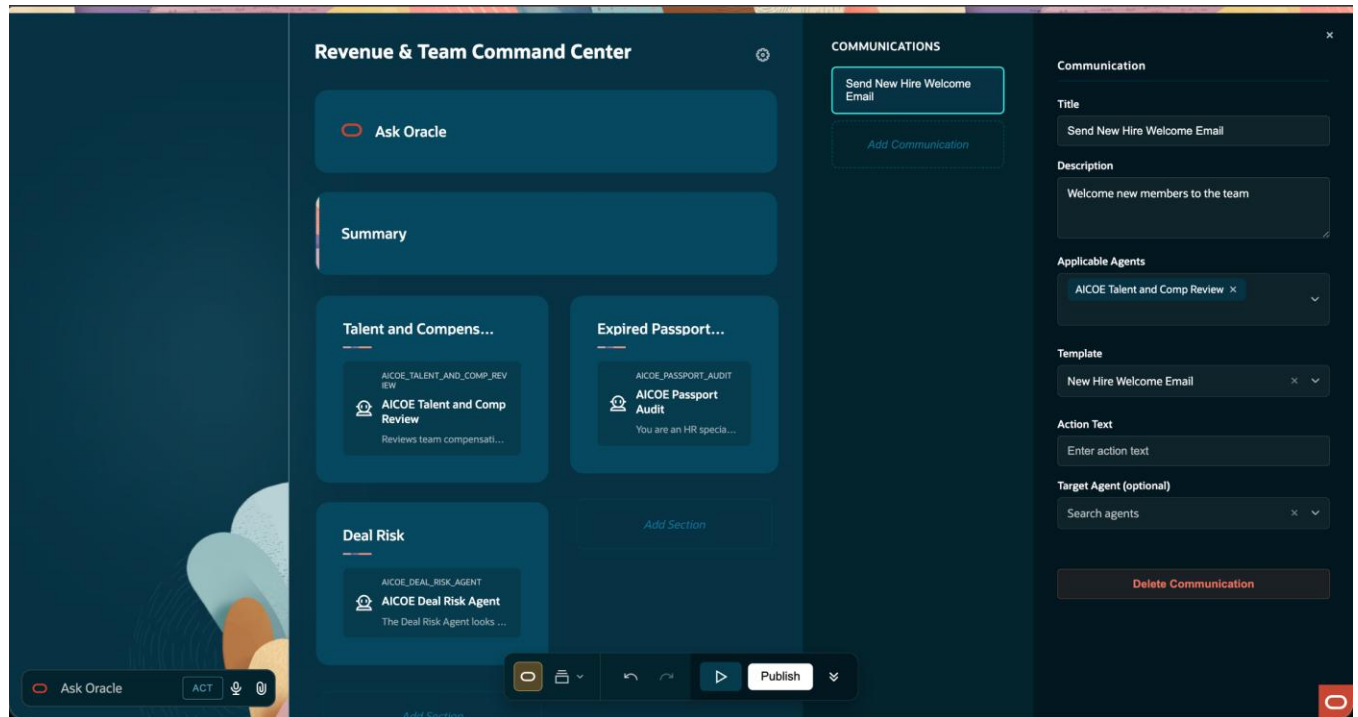

- Click **Add Communication** button and populate Communication properties.

Title: *Send New Hire Welcome Email*

Description: *Welcome new members to the team*

Applicable Agents: *[YOUR NAME INITIALS] Talent and Comp Review*

Template: *New Hire Welcome Email*

- Test the application, click on Play / Run button. Click **Send New Hire Welcome Email** in the right sidebar under **Communications**.

Revenue & Team Command Center
Welcome back - your AI decision hub highlights where to focus now to protect and grow revenue, ensure your team is ready to deliver, and stay ahead of operational risks.

NA Consulting Salary, Performance, and Key Deal Risk Overview

NA Consulting's team spans roles from Associate Consultant to Program Director, with salaries from \$65K to \$160K and mostly positive performance ratings. The critical risk is the "KPN Oracle Fusion Cloud HCM rollout" deal, valued at \$240K, stuck 800 days in Qualification with only a 10% win chance, threatening significant revenue loss. Immediate action is needed to mitigate this risk. Additionally, employee Carli Lavelle has an urgent compliance issue due to an expired document.

Name	Job	Current Salary	Compa Ratio	Performance Rating	Risk of Loss
Emily Rodriguez	Oracle Cloud Financials Implementation Consultant	\$78,000	0.91	Exceeds Expectations	High
Sarah Johnson	Oracle Cloud Associate Consultant	\$65,000	0.93	Meets Expectations	Medium

Team Talent Overview
The team shows a strong distribution of performance ratings, with several employees exceeding expectations. However, there are notable high-risk retention concerns for employees with lower Compa Ratios combined with strong performance, particularly those with mid-level tenure. Overall, compensation positioning is generally competitive, with most high performers positioned at or above market median, reducing broader flight risk.

Expired Passports & Work Permits
Employee Document Expiry Review
The highest-risk case is Carli Lavelle, who is on a critical assignment with an expired document. Immediate action is recommended to update or renew the document to maintain compliance. No other expired documents or documents expiring within 30 days were identified.

Priority Actions (2)

- Critical** AICOE Talent and Comp Review
Suggestion: request check-in for Jane Smith
This employee has a high risk of loss. Schedule a check-in to proactively engage and discuss retention.
Request Check-in
- Critical** AICOE Deal Risk Agent
KPN Oracle Fusion Cloud HCM rollout
KPN Oracle Fusion Cloud HCM rollout (01 - Qualification, WinProb 10) shows risk due to stalled opportunity with low win probability
Log a Call

Communications

- Send New Hire Welcome Email**
Welcome new members to the team
- Passport/Workpermit Expiration - Immediate action requested**
Notify Lavelle, Carli of expired document requiring urgent update
- Deal Risk Alert: Stalled Opportunity (High)**
Alert for KPN Oracle Fusion Cloud HCM rollout due to stalled stage with high revenue exposure.

- Take a look at how the email template appears. Notice that Subject & Body (Welcome Email) are empty – Lets fix that.

Revenue & Team Command Center
Welcome back - your AI decision hub highlights where to focus now to protect and grow revenue, ensure your team is ready to deliver, and stay ahead of operational risks.

NA Consulting Team and Key Deal Risk Overview

NA Consulting has nine employees with salaries from \$65K to \$160K, mostly performing at or above expectations. The major risk is the \$240K KPN Oracle Fusion Cloud HCM rollout deal, stuck 800 days in Qualification with only a 10% chance to close, threatening significant revenue loss. Immediate action is needed to mitigate this risk and improve forecast accuracy. Additionally, employee Carli Lavelle has an urgent compliance issue due to an expired document.

Name	Job	Current Salary	Compa Ratio	Performance Rating	Risk of Loss
Emily Rodriguez	Oracle Cloud Financials Implementation	\$78,000	0.91	Exceeds Expectations	High

12. Go to the **Agent Teams** tab and search for **[YOUR NAME INITIALS] Talent and Comp Review** agent team.

The screenshot shows the Oracle Agent Teams interface. At the top, there's a search bar with the text 'AICOE Talent and Comp Review' and a search button. Below the search bar, there's a table listing agent teams. The table has columns: Agent Team Name, Description, Agent Team Code, Family, Product, Type, Version, Created By, and Actions. The table contains one row for 'AICOE Talent and Comp Review'.

Agent Team Name	Description	Agent Team Code	Family	Product	Type	Version	Created By	Actions
AICOE Talent and Comp Review	Reviews team compensation, performance, and retention risk so managers can see who needs attention and launch a schedule check-in with the selected employee.	AICOE_TALENT_AND_COMP_REVIEW	HCM	Workforce Directory Management	Workflow	22	Curtis Fei	[Edit] [Download] [Delete]

13. Review the workflow, click the 3 dots (ellipsis menu) on **Fill Parameters** LLM node and select **Edit**.

14. Review the **Prompt** for the **Fill Parameters** LLM node and add highlighted lines to it.

You are generating content for structured email communications template.

Use ONLY the data provided:

- Data: {{\$context.\$variables.CompPerformancePayload}}

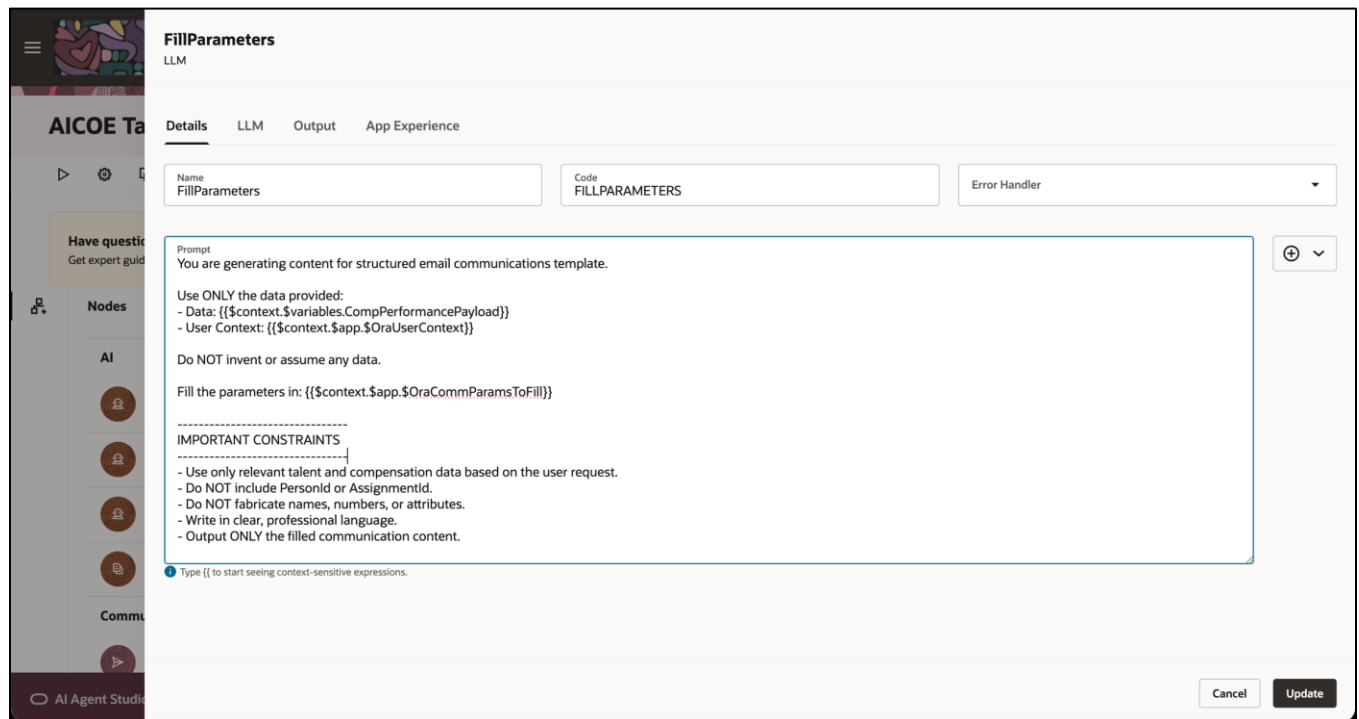

- User Context: {{\$context.\$app.\$OraUserContext}}

Do NOT invent or assume any data.

Fill the parameters in: {{\$context.\$app.\$OraCommParamsToFill}}

IMPORTANT CONSTRAINTS

- Use only relevant talent and compensation data based on the user request.
- Do NOT include PersonId or AssignmentId.
- Do NOT fabricate names, numbers, or attributes.
- Write in clear, professional language.
- Output ONLY the filled communication content.

After updating the prompt, remember to update and publish the agent before going back to app for testing.

15. Go back to the app and select the **Send New Hire Email** on the right-hand side again. Review the and notice the email fields To, Cc, Subject & Content are now generated (you may edit the content if you like). Click **Generate** to prepare the email to send.

Ask Oracle

Critical Deal Risk and Employee Compliance Issue

The "KPN Oracle Fusion Cloud HCM rollout" deal poses a significant risk with \$240,000 at stake, a low 10% win probability, and an unusually long 800-day qualification stage, indicating a high chance of delay or loss. Immediate action is needed to address competition and advance the deal to protect revenue and forecast accuracy. Additionally, employee Carli Lavelle has an expired critical document requiring urgent compliance attention.

Deal Risk

Top Risk Opportunities

Top risk opportunities are identified based on deal risk categories: stalled, competitive, and low win probability with high revenue. Below is a structured view of the top 5 risk deals prioritized by these criteria.

These opportunities are flagged for immediate attention due to stalled or competitive risks or low win probability despite high revenue potential. Actions are suggested to progress each deal effectively.

Name	Recommended Action	Deal Risk	Revenue (USD)	Win Prob (%)
